At the end of another frantically busy year, I want to take time to thank the many reviewers who have recently contributed to carefully analysing manuscripts submitted to our journal. In addition, I would like to make a special thanks to Judith Peterson, MD, the Associate Editor for Dance, for her contribution over the last year.

With the ever-increasing number of performing arts medicine and science papers submitted to MPPA, we simply could not present the impressive depth and breadth of research in this field without the help of our reviewers. We are taking the opportunity to list these wonderful people, and hope we have not left anyone’s name off the list. Thank you all for your incredible contribution of your time, expertise, and knowledge.
